Bengaluru, India | +91 9945755897 | aksusarla@gmail.com | LinkedIn

Education

Birla Institute of Technology & Science, Pilani Nov 2022 – May 2026
B.E. (Hons.) Mechanical Engineering | Minor: Finance

Skills

Analytics	Microsoft Excel (advanced), SQL, Python (Pandas, NumPy), Google Sheets + Apps Script, data analysis
Operations	Pipeline/project tracking, stakeholder coordination, process documentation, SOPs, project management
Strategy	PRD writing, GTM strategy, market research, business development, value-based pricing
AI / Design	ChatGPT, Claude (production use), prompt engineering, workflow automation, Figma, Canva
Certifications	Google Data Analytics (in progress), Google AI Essentials, Google AI Professional

Leadership Experience

Head of Department, Sponsorship & Marketing Jul 2024 – Jun 2025
StuCCAn, BITS Pilani Hyderabad

- Led sponsorship and marketing for Pearl'25, the flagship annual fest (10K+ footfall); raised **Rs.81L+** across 50+ partnerships (Rs.45L cash + Rs.36L in-kind), among the highest-value editions on record.
- Built a centralized sponsor-operations system covering deliverables, imagery, status, owners, and account notes across all 50+ active accounts; served as the single source of truth for a 30-member team.
- Improved sponsorship conversion by ∼30% YoY using data-backed targeting; expanded SBI's campus account 7.5× from Rs.2L to Rs.15L by surfacing previously unused usage insights and building internal stakeholder support.
- Launched a D2C partner vertical from zero: a shelf-placement model with 3Sisters that generated Rs.1.6L in 3-day sales and became a repeatable activation playbook for subsequent brand partners.
- Structured Rs.36L of fest value as in-kind sponsorship, displacing operating cash costs while managing registrar-reviewed MoUs, GST-compliant invoicing, and cash-flow tracking for the Students' Union.

Strategic Team Member, Student Welfare Division Nucleus 2023 – 2025
BITS Pilani Hyderabad | Campus Operations

- Selected as 1 of 4 from 120+ applicants to work directly with the Chief Warden and Associate Dean on technology-led improvements for ∼5,000 residential students across 12 hostels.
- Scoped, aligned stakeholders, and supported rollout of the SWD App: Gate Pass (reduced peak exit waits from 30–60 min to zero) and SWDPay (closed-loop campus wallet, ∼5,000 daily users).
- Authored four user-specific manuals for students, security guards, hostel admins, and mess vendors; resolved first-quarter rollout friction and standardized operational SOPs.

Professional Experience

Research Intern Jul 2025 – Dec 2025
WILP Intelligent Systems Laboratory, BITS Pilani

- Managed milestone planning, weekly progress tracking, and cross-functional documentation for an experimental reinforcement-learning project, ensuring on-time delivery across the research lifecycle.
- Built a Google Sheets inventory tracker with structured location-item codes, reducing asset retrieval friction and improving laboratory operations visibility.

Summer Intern May 2024 – Jul 2024
Dunlin.ai | BITS Practice School-1 Placement

- Supported GTM content, outreach, and market research for an AI-driven bookkeeping product as part of the BITS Practice School programme.

Selected Projects

SWD App – Gate Pass & SWDPay | *Product Requirements Document*

- Authored a retrospective PRD for a shipped campus product (∼5,000 daily users): user personas, P0/P1/P2 feature priorities, success metrics, rollout strategy, and proposed instrumentation for future data collection.

LinkedIn Hiring Efficiency Analysis | *Data Analytics*

- Cleaned and analysed large-scale LinkedIn datasets using Python and SQL to engineer Hiring Efficiency metrics; identified drivers of candidate attraction across salary bands, remote status, and geographies.

The Campus Sponsorship Playbook | *Self-authored Operating Framework, 2025*

- 20-page operating framework on sponsorship at scale: sponsor categorisation, pricing with margin floors, team design, compliance, fund-flow, and human-AI division of labour in BD.
